

Docket Navigator Decathlon

Answer Key

1. How many times has the claim term “individual” been construed in a U.S. district court case? What were the definitions and for which cases/patents were they construed?

Answer

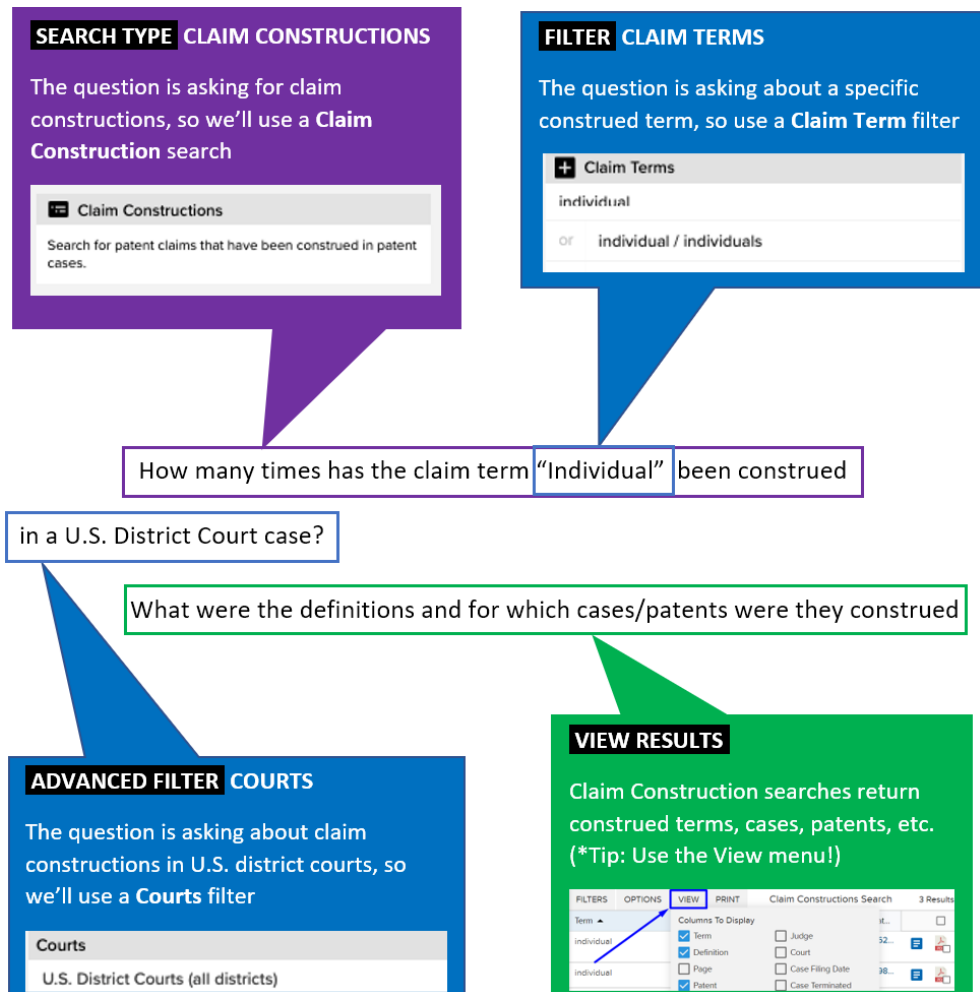

3 times:

1. Construed in *Hewlett-Packard, et al v. Gateway Inc* to mean “spaced apart from one another and not joined to one another” (Patent no. 5625532)
2. Construed in *BASCOM Global Internet Services, Inc. v. AT&T Inc.* to mean “separate or discrete” (Patent no. 5987606)
3. Construed in *Minton v. NASD, et al* to mean “no restriction or limitation on the identity of the traders” (Patent no. 6014643)

Overview

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Since this question asks for the construction of claim terms and their definitions, we’ll use a **Claim Constructions** search. This search type allows you to filter for construed claim terms by judge, jurisdiction, etc. Other aspects of the question can be addressed with **Filters** within a Documents search, as shown in the diagram below.

STEP 1 – SEARCH TYPE

On the [main search page](#), under the Custom Search section, select a **Claim Constructions** search

The screenshot shows the 'Custom Search' interface. At the top, it says 'Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.' Below this, there are two main sections: 'Cases' and 'Documents'. The 'Cases' section has a table with columns for Case, Action/Judge, and Case Filing Date. The 'Documents' section has a table with columns for Type of Document, Result, Case, and Document Date. Below these tables are search buttons: 'Search For Cases' and 'Search For Documents'. To the right of these tables is a 'HIDE SEARCH TYPES' button. Below the search buttons are several categories: Patents, Accusations, Docket Sheets, Remedies, Parties, Firms, Attorneys, Determinations, PTAB Institutions, and Claim Constructions. The 'Claim Constructions' category is highlighted with a red box and a red arrow pointing to it. The description for 'Claim Constructions' is 'Search for patent claims that have been construed in patent cases.'

***Note:** If the Claim Construction search is not visible on your screen, click “Show All Search Types”

STEP 2 – FILTERS:

Using the **Claim Terms** filter, select “Exactly,” type ‘Individual’ and select that claim term (and its homologue: ‘Individual/Individuals’) from the drop-down menu

The screenshot shows the 'Patent Library' interface. At the top, it says 'Find a list of Claim Constructions'. Below this, there are two main sections: 'Claim Terms' and 'Patent Type'. The 'Claim Terms' section has a table with columns for Claim Terms, Select All, and individual bid ceiling. The 'Patent Type' section has a table with columns for Patent Type, begin typing, and Affiliates. Below these tables are search buttons: 'Search For Cases' and 'Search For Documents'. To the right of these tables is a 'SHOW ALL SEARCH TYPES' button. Below the search buttons are several categories: Patents, Accusations, Docket Sheets, Remedies, Parties, Firms, Attorneys, Determinations, PTAB Institutions, and Claim Constructions. The 'Claim Constructions' category is highlighted with a red box and a red arrow pointing to it. The description for 'Claim Constructions' is 'Search for patent claims that have been construed in patent cases.'

Under Advanced Filters tab*
select the **Courts** filter

***Note:** If you don't see a filter on the main filters page, it's probably on the Advanced Filters tab!

Select *U.S. District Courts (USDC)*. Clicking the box next to that option will automatically select all of the individual U.S. district courts

STEP 3 – VIEW RESULTS

Click “View 3 Results” to view the search results

On the search results page, click “View” and select “Case” to display case names in the search results. Then click “Update Layout”

The search results now display the three types of information requested: patent numbers, definitions, and case name

***ProTip:** You can edit the filters by clicking the “Filters” button

2. From Jun. 1st, 2014 - Jun. 1st, 2019, how many U.S. district court decisions have addressed motions for summary judgment asserting patent invalidity based on lack of patentable subject matter under 35 USC § 101? How many of those were granted?

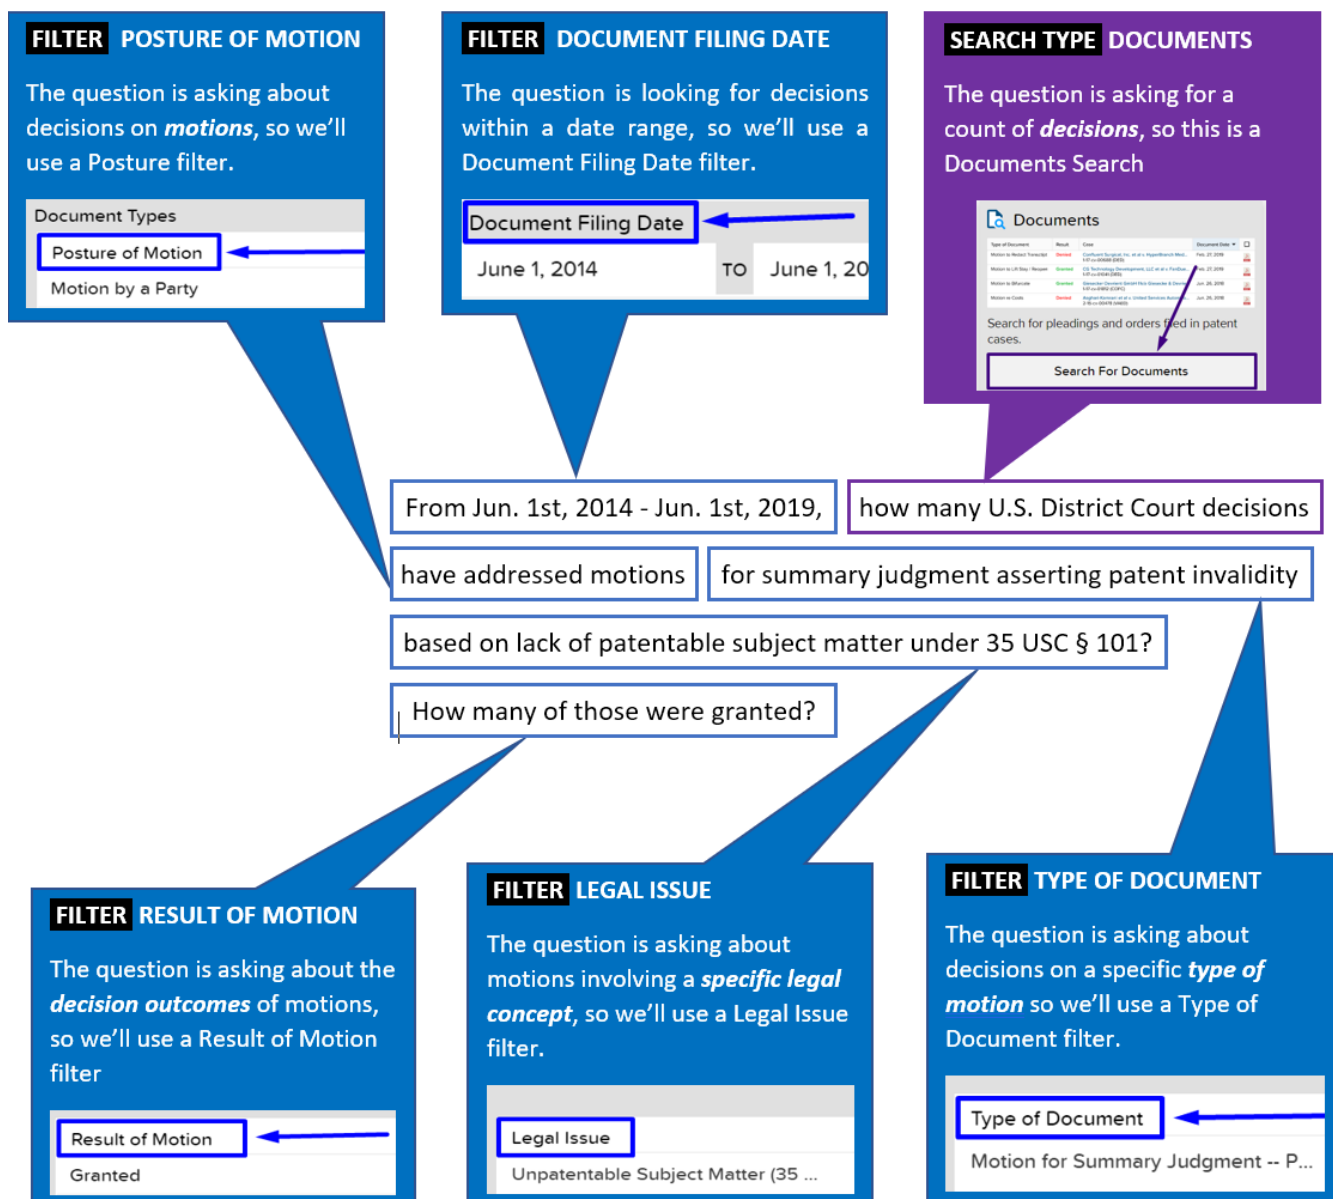

Answer

156 Decisions - 74 Granted

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for a count of “decisions” (i.e., Orders), so a **Documents** search will provide the answer. Other aspects of the question can be addressed with **Filters** within a Documents search, as shown in the diagram below.

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Documents** search

Custom Search
Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.

Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or group of companies, select "Cases." If you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.

Cases
Search for cases in federal courts, the ITC and the PTAB.

3. From Nov. 1st, 2012 - Jun. 1st, 2019, how many rulings on requests for rehearing of an IPR institution decision have there been? How many of those were granted?

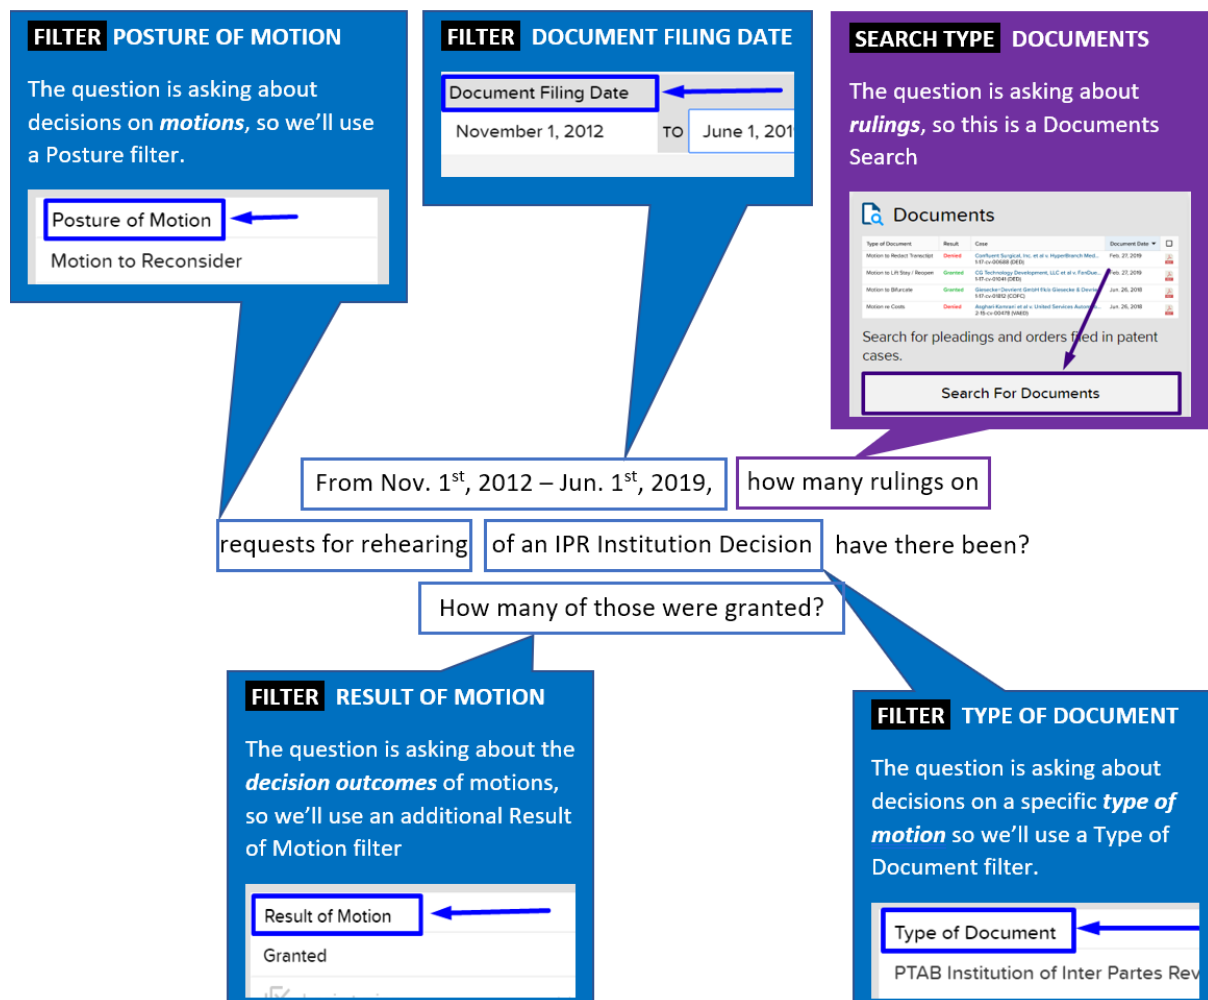

Answer

1132 Rulings – 43 Granted

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for a count of “rulings” (i.e., Orders), so a **Documents** search will provide the answer. Other aspects of the question can be addressed with **Filters** within a Documents search, as shown in the diagram below. The tricky part of this question is recognizing that a “request for rehearing” of IPR decisions doesn’t call for a separate document type – but rather the *same* document type (*PTAB Institution of Inter Partes Review*) with a *Motion to Reconsider* posture. If you caught that, kudos!

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Documents** search

Custom Search
Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.

Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or group of companies, select "Cases." If you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.

11

4. From Jun. 1st, 2014 - Jun. 1st, 2019, how many rulings on original, contested motions to stay pending IPR have there been? What was the percentage of grants for those in 2018?

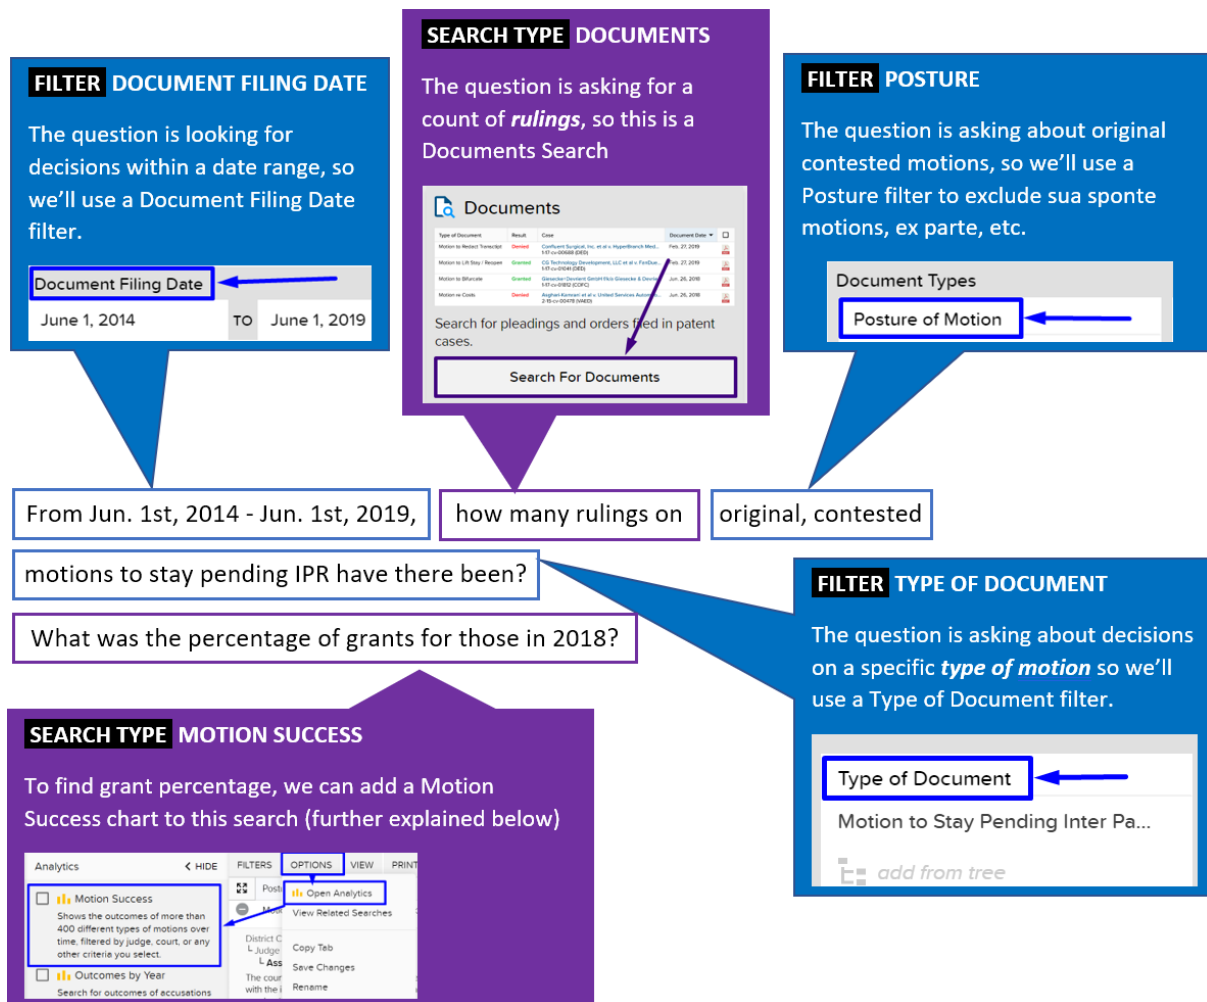

Answer

915 rulings, with a 47% grant rate in 2018

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for a count of “rulings” (i.e., Orders), so a **Documents** search will provide the answer. Other aspects of the question can be addressed with **Filters** within a Documents search, as shown in the diagram below. The tricky part is catching that “original, contested motions” means filtering under **Posture of Motion** for “Motion by a Party” and “Emergency” motion types (excluding stipulated, *ex parte*, *sua sponte* motions, etc. which are not original contested motions). To find the success rates for the motions, create a chart showing those orders broken down by year using **Options** → **Open Analytics** → **Motion Success**.

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Documents** search

Custom Search
Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.

Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or group of companies, select "Cases." If you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.

5. In cases filed from Jun. 1st, 2014 - Jun. 1st, 2019, how many patents has Apple Inc. asserted in U.S. district court cases? Were any found infringed?

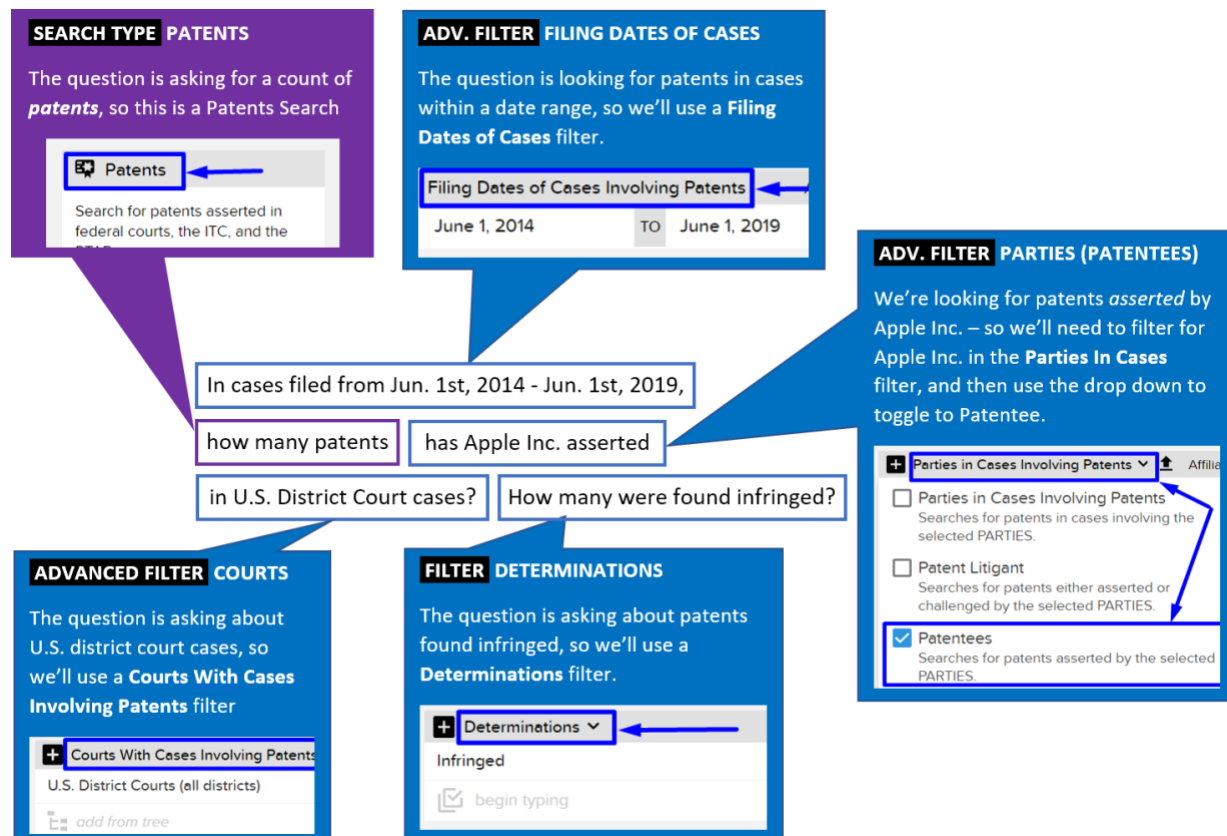

Answer

17 patents asserted, 1 found infringed.

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for a count of patents, so a **Patents** search will provide the answer. Other aspects of the question can be addressed with **Filters** within a Patents search, as shown in the diagram below. The trick here is recognizing that the patents Apple 'has asserted' means searching for Apple as the Patentee. In a Patents search, filters for **Parties** are under the **Advanced Filters** page – just remember to click the drop-down and switch the filter-type to 'Patentees.' Once you add the date and court filters (also on the **Advanced Filters** page), you're all set!

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Patents** search

Custom Search
Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.

Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or group of companies, select "Cases." If you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.

The screenshot displays the Patents Search interface. At the top, there are tabs for "Filters for Patents", "Advanced Filters", "MORE SEARCH TYPES", "CREATE ALERT", and "VIEW 17 RESULTS". A red arrow points to the "VIEW 17 RESULTS" button. Below the tabs, there is a section titled "Find a list of Patents" with several filter categories: "Patentees" (Apple Inc.), "Attorneys in Cases Involving Patents", "Courts With Cases Involving Patents" (U.S. District Courts), and "Filing Dates of Cases Involving Patents" (June 1, 2014 to June 1, 2019). Below this, there is a table of results with columns for "Patent" and "Patent Name". The table lists 10 patents, including "Integrated circuit with separate supply voltage for memory that is different from..." and "Conserving power by reducing voltage supplied to an instruction-processing...". A red arrow points from the "Filters" tab to the "Related Filters" section, which includes "Judges Assigned to Cases Involving Patents", "Patent Type", "Patent Technologies", and "Determinations". The "Determinations" section is highlighted with a red box and contains three options: "Not invalid (2)", "Infringed (1)", and "Not infringed (1)".

6. What was the PTAB institution success rate for Banner & Witcoff in 2018 when they represented the Patent Owner?

Answer

6 Institutions granted; 4 Institutions denied.

Since the question is asking about PTAB institution success rates, you might be tempted to use a **PTAB Institutions** search, or a **Documents** search for *PTAB Institution of _____*. While both of those searches will ultimately lead to the right answer, there is quicker solution here: a **Motion Success** chart

Overview

To build a **Motion Success** chart, start by clicking on the chart-type on the homepage (under Analytics). The trick for the filters is recognizing that the patents Apple 'has asserted' means searching for Apple as the Patentee. In a Patents search, filters for **Parties** are under the **Advanced Filters** page – just remember to click the drop-down and switch the filter-type to 'Patentees.'

Shortcut Alert!

If you're familiar with our Database, you may recognize that **PTAB Institution Success Rates** is one of the pre-built charts in the Firm Profiles. You can access that chart with just a few clicks either directly through the **Firm Profile**, or, starting from an existing binder, you can select that chart tab individually to add to your binder!

FILTER TYPE OF DOCUMENT
The question is asking about rulings on *institution events*, so we'll use a Type of Document filter.

Type of Document

PTAB Institution of Covered Busine...

or PTAB Institution of Inter Partes...

or PTAB Institution of Post Grant ...

SEARCH TYPE MOTION SUCCESS
Since this question is looking for institution *success rates*, we'll use a **Motion Success** Chart (under the Analytics section of the main search page)

What was the PTAB institution

success rate

for Banner & Witcoff in 2018 when they represented the Patent Owner

FILTER FIRMS (PATENTEE FIRMS)
We're looking for institution success for a Firm when they represented a specific type of client (Patent Owner) - we'll need to filter for Banner & Witcoff in the **Firms** filter, and then use the drop down to toggle to **Patentee Firm**.

+ Firms

☐ Firms
Counts only documents in cases in which the selected FIRMS represented a party.

☒ Patentee Firms
Counts only documents in cases in which the selected FIRMS represented a patentee.

STEP 1: SEARCH TYPE

On the [main search page](#), select a **Motion Success** chart under **Analytics**

STEP 2: FILTERS

Using the **Firms** filter, enter *Banner & Witcoff* and select “Patentee Firms” using the dropdown

The 'Patentee Firms' filter dropdown menu is shown. It includes options for 'Firms', 'Patentee Firms' (selected), and 'Patent Challenger Firms'. The 'Patentee Firms' option is highlighted with a red box.

Using the **Posture of Motion** filter, select *Motion by a Party*

The 'Posture of Motion' filter dropdown menu is shown. It includes options for 'Select All', 'Motion by a Party (69)' (selected), 'Stipulated/Agreed', 'Ex Parte / Emergency', and 'Sua Sponte'. The 'Motion by a Party (69)' option is highlighted with a red box.

Using the **Type of Document** filter, select *PTAB Institution of [IPR/CBM/PGR]*

The 'Type of Document' filter dropdown menu is shown. It includes options for 'Patent Owner Preliminary Response', 'Patent Owner Response', 'Institution of Review (82)', and 'PTAB Institution of Inter Partes Review (82)' (selected). The 'PTAB Institution of Inter Partes Review (82)' option is highlighted with a red box.

STEP 3: VIEW RESULTS

Click “View 69 Results” to view the search results.

The search results page is shown. It includes filters for 'Document Types', 'Type of Document', 'Result of Motion', and 'Legal Issue'. The 'View 69 Results' button is highlighted with a red box.

***Protip:** Use the gear icon on the chart to toggle to show percentages

7. For ITC cases that terminated from Jan. 1st, 2014 - Jan. 31st, 2018, what were the accusation outcomes for Finnegan's patent owner clients?

Answer

380 Accusations (breakdown in binder)

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for Outcomes of Accusations, so we'll use an Accusations search type. Accusations data is unique Docket Navigator and basically corresponds to the claims in a lawsuit (Accusations) and the resolution of those claims (Outcomes). More complete definitions can be found in our [User Guide](#). Other aspects of the question can be addressed with **Filters** within an Accusation search, as shown in the diagram below.

FILTER COURTS

The question is asking about cases in the ITC, so we'll use a **Court** filter. In this context "court" includes any tribunal that resolves disputes.

Courts
International Trade Commission

ADVANCED FILTER CASE TERMINATION DATE

The question is looking for decisions within a date range, so we'll use a **Case Termination Date** filter.

Case Termination Date
January 1, 2014 TO January 31, 2018

For ITC cases that terminated from Jan. 1st, 2014 - Jan. 31st, 2019, what were the accusation outcomes for Finnegan's patent owner clients?

SEARCH TYPE ACCUSATIONS

The question is asking for accusations/outcomes, so this is an **Accusations** Search

Search For Cases
Search For Documents
Accusations

FILTER FIRM (PATENTEE)

We're looking for outcomes for a specific law firm's clients, so we'll use a **Firm** filter and select **Patentee Firms**.

Firms
☐ Firms
Searches for patent accusations in cases in which the selected FIRMS represented a party.
☒ Patentee Firms
Searches for patent accusations in cases in which the selected FIRMS represented a party asserting or defending a patent.

STEP 1 – SEARCH TYPE

On the [main search page](#), select an **Accusations** search

The screenshot shows the 'Custom Search' interface. At the top, there's a header 'Custom Search' with a sub-header 'Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.' Below this, a note says: 'Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or group of companies, select "Cases." If you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.'

The interface is divided into two main sections: 'Cases' and 'Documents'. The 'Cases' section has a table with columns: Case, Active Judge, Case Filing Date. It lists several cases, including 'Echelon Technologies, LLC v. Stetel Drill Specialists, LLC' and 'Constar Therapeutics, Inc. v. Tera Pharmaceuticals USA, Inc. et al'. The 'Documents' section has a table with columns: Type of Document, Result, Case, Document Date. It lists documents like 'Motion to Rehear Transcript' and 'Motion to Lift Stay / Reopen'. A red box highlights the 'Accusations' filter under the 'Cases' section, and another red box highlights the 'HIDE SEARCH TYPES' button in the top right corner.

STEP 2 – FILTERS:

Overview

Under the **Firms** filter, enter *Finnegan* and select "Patentee Firms" using the dropdown

Using the **Courts** filter, select *International Trade Commission*

Under the **Advanced Filters Tab**, enter the relevant dates into the **Case Termination Date** filter

The screenshot shows the 'Accusations Filters' and 'Courts' filters interface. The 'Accusations Filters' section has a table with columns: Patente, P..., Patent Challenger, Case Name, Case ..., Outcome. It lists several cases, including 'Telefonaktiebolaget LM Ericsson' and 'Covidien LP'. A red box highlights the 'Patentee Firms' filter under the 'Firms' section, and another red box highlights the 'Patentee Firms' filter under the 'Firms' section. The 'Courts' section has a table with columns: Courts, Case Termination Date. It lists several courts, including 'U.S. District Courts (USDC)', 'Federal Circuit (CAFC)', 'International Trade Commission (ITC) (380)', and 'Patent Trial and Appeal Board (PTAB)'. A red box highlights the 'International Trade Commission (ITC) (380)' filter.

STEP 3 – VIEW RESULTS

8. From Jan. 1st, 2014 - Dec. 31st, 2018, how many ANDA patent cases were filed in U.S. district courts?

Answer

Overview

2006 Cases

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

This question is asking for a count of cases, so we'll use a **Cases** search type. To find ANDA cases, filter for cases that contain ANDA pleadings using a **Type of Document** filter. Here, you'll want to select each of the ANDA pleadings that could contain ANDA claims: *Complaint – Infringement (ANDA)*, *Complaint – Declaratory Judgment (ANDA)*, and *Counterclaim – Infringement (ANDA)*. This will narrow your results to just cases that contain those documents – i.e., all ANDA cases. From there, just add a quick date filter and you're all set!

FILTER CASE FILING DATE

The question is looking for cases within a date range, so we'll use a **Case Filing Date** filter.

Case Filing Date Autofill ▼
June 1, 2014 TO December 31, 2019

ADVANCED FILTER TYPE OF DOCUMENT

The question is asking about ANDA cases, which we can identify by searching for cases that contain ANDA pleadings using a **Type of Document** filter.

Type of Document
Counterclaim -- Infringement -- ANDA

From Jun. 1st, 2014 – Dec. 31st, 2019, how many ANDA patent cases were filed in U.S. district courts?

SEARCH TYPE CASES

The question is asking for a count of **cases**, so this is a Cases Search.

Custom Search
Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.

Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or if you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.

Cases
Search for cases in federal courts, the ITC and the PTAB.
Search For Cases

Documents
Search for pleadings and orders filed in patent cases.
Search For Documents

FILTER COURTS

The question is asking about cases in U.S. district courts, so we'll use a **Courts** filter

Courts
U.S. District Courts (all districts)

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Cases** search

STEP 2 – FILTERS:

Overview

Under the **Advanced Filters** tab, use the **Type of Document** filter, select *Complaint – Infringement -- ANDA*, *Complaint – Declaratory Judgment – ANDA*, and *Counterclaim – Infringement – ANDA*

Use the **Case Filing Date** filter to enter the relevant dates

STEP 3 – VIEW RESULTS

Click “View 2006 Results” to view the search results

***Frequent Mistakes:** Attempting to filter for ANDA cases using *Legal Issues* instead of searching for ANDA pleadings using *Document Types*.

9. From Jan. 1st, 2014 - Dec. 31st, 2018, how many cases involving Orange Book patents were filed in U.S. district courts?

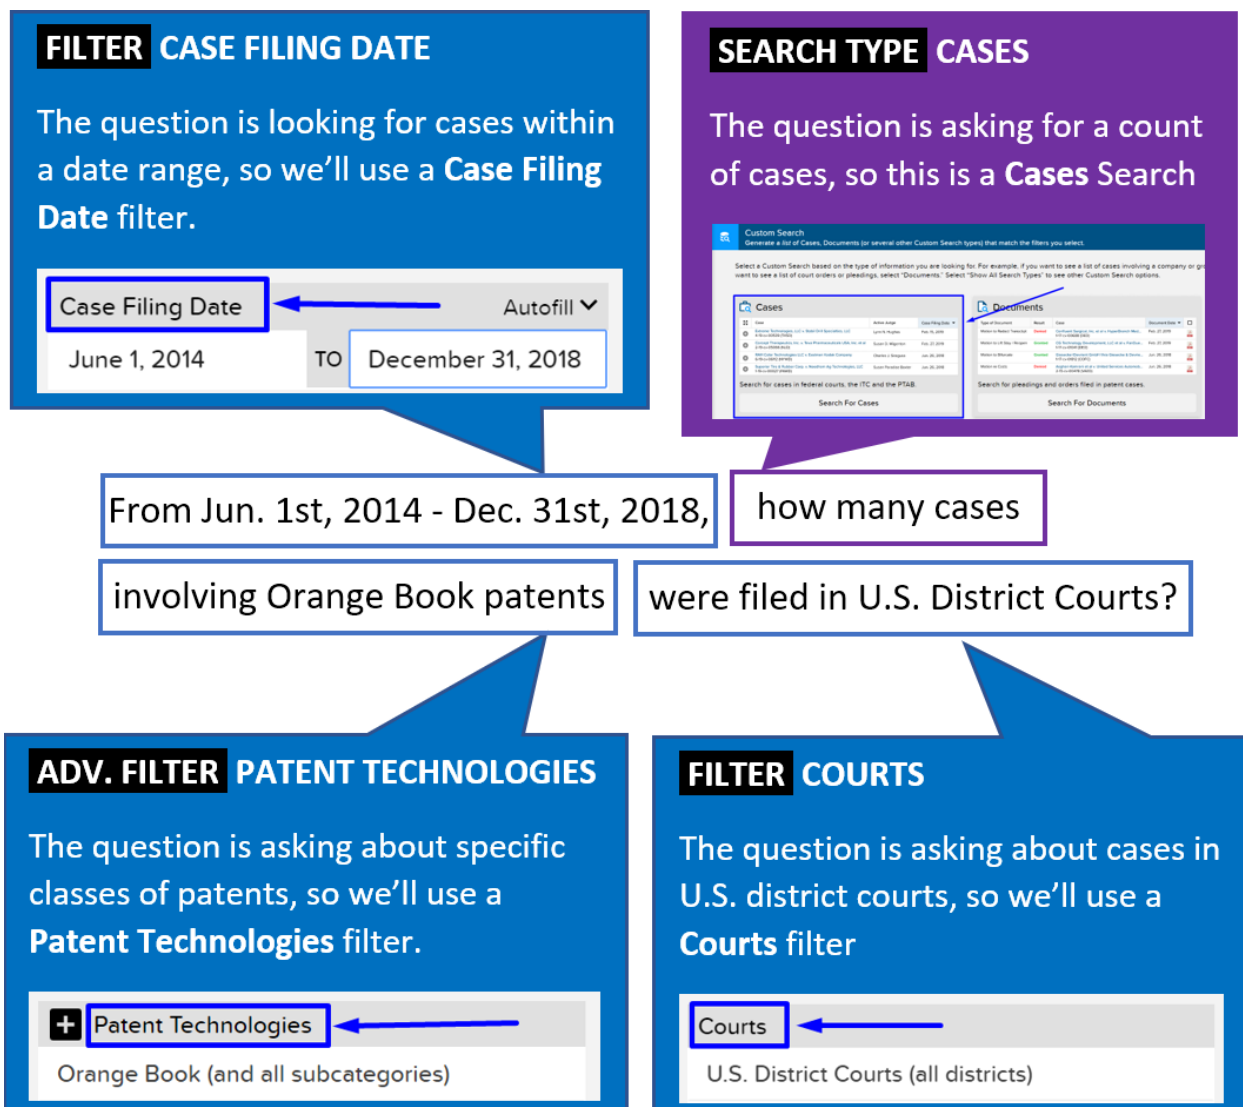

Answer

1884 Cases

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for a count of cases, so we'll use a **Cases** search type. Other aspects of the question can be addressed with **Filters** within an Accusations search, as shown in the diagram below. Docket Navigator contains listings of most major patent classification systems (CPC, USPC) as well as PTAB and Orange Book codes all of which can be accessed with a Patent Technologies filter.

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Cases** search

The screenshot shows the 'Custom Search' interface. At the top, it says 'Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.' Below this, there's a section titled 'Select a Custom Search based on the type of information you are looking for. For example, if you want to see a list of cases involving a company or group of companies, select "Cases." If you want to see a list of court orders or pleadings, select "Documents." Select "Show All Search Types" to see other Custom Search options.' There are two main sections: 'Cases' and 'Documents'. The 'Cases' section is highlighted with a red box. It contains a table with columns: Case, Active Judge, and Case Filing Date. The table lists several cases, including 'Edwards Technologies, LLC v. Stated Ditt Specialties, LLC' and 'Concert Pharmaceuticals, Inc. v. Teva Pharmaceuticals USA, Inc. et al'. Below the table is a search bar and a 'Search For Cases' button. The 'Documents' section is also visible, with a table for 'Type of Document', 'Result', 'Case', and 'Document Date'. It lists documents like 'Motion to Revoke Trademark' and 'Motion to Lift Stay / Remand'. Below this is a search bar and a 'Search For Documents' button. A 'SHOW ALL SEARCH TYPES' button is located to the right of the 'Documents' section.

STEP 2 – FILTERS:

Overview

Using the **Courts** filter, select *U.S. District Courts*

Use the **Case Filing Date** filter to enter the relevant dates

Under the **Advanced Filters** tab, use the **Patent Technologies** Filter to enter *Orange Book*

The screenshot shows the 'Filters for Cases' interface. At the top, there are tabs: 'Filters for Cases', 'Advanced Filters', 'Use Previous Search Results', 'MORE SEARCH TYPES', and 'VIEW 1884 RESULTS'. The 'Filters for Cases' tab is selected. Below the tabs, there's a section titled 'Find a list of Cases'. It contains several filter sections: 'Parties', 'Affiliates', 'Patents', 'Case Filing Date', 'Case Status', 'Courts', and 'Patent Technologies'. The 'Courts' section is highlighted with a red box. It shows a search bar 'type to find in tree' and a list of options: 'U.S. District Courts (USDC) (1884)', 'Federal Circuit (CAFC) Limited Scope', and 'International Trade Commission (ITC)'. The 'U.S. District Courts (USDC) (1884)' option is selected. The 'Case Filing Date' section shows a date range from 'January 1, 2014' to 'December 31, 2018'. The 'Patent Technologies' section is also visible, showing a search bar and a list of options: 'Cooperative Patent Classification', 'U.S. Patent Classification (Grouped by NBER Technology Categories) Limited Scope', 'Orange Book', and 'Patent Technology Centers'. The 'Orange Book' option is selected.

STEP 3 – VIEW RESULTS

Click "View 1884 Results" to view the search results

The screenshot shows the 'Filters for Cases' interface with the 'VIEW 1884 RESULTS' button highlighted with a red box and an arrow pointing to it. Below the filters, there's a section titled 'Find a list of Cases'. It contains a table with columns: Document Types, Type of Document, Result of Motion, and Legal Issue. The table lists several documents, including 'Posture of Motion' and 'Motion to Revoke Trademark'. Below the table is a search bar and a 'Search For Cases' button.

10. How many Design patents were asserted in U.S. district court cases filed from Jun. 1st, 2014 - Jun. 1st, 2015? How many of those patents were found infringed?

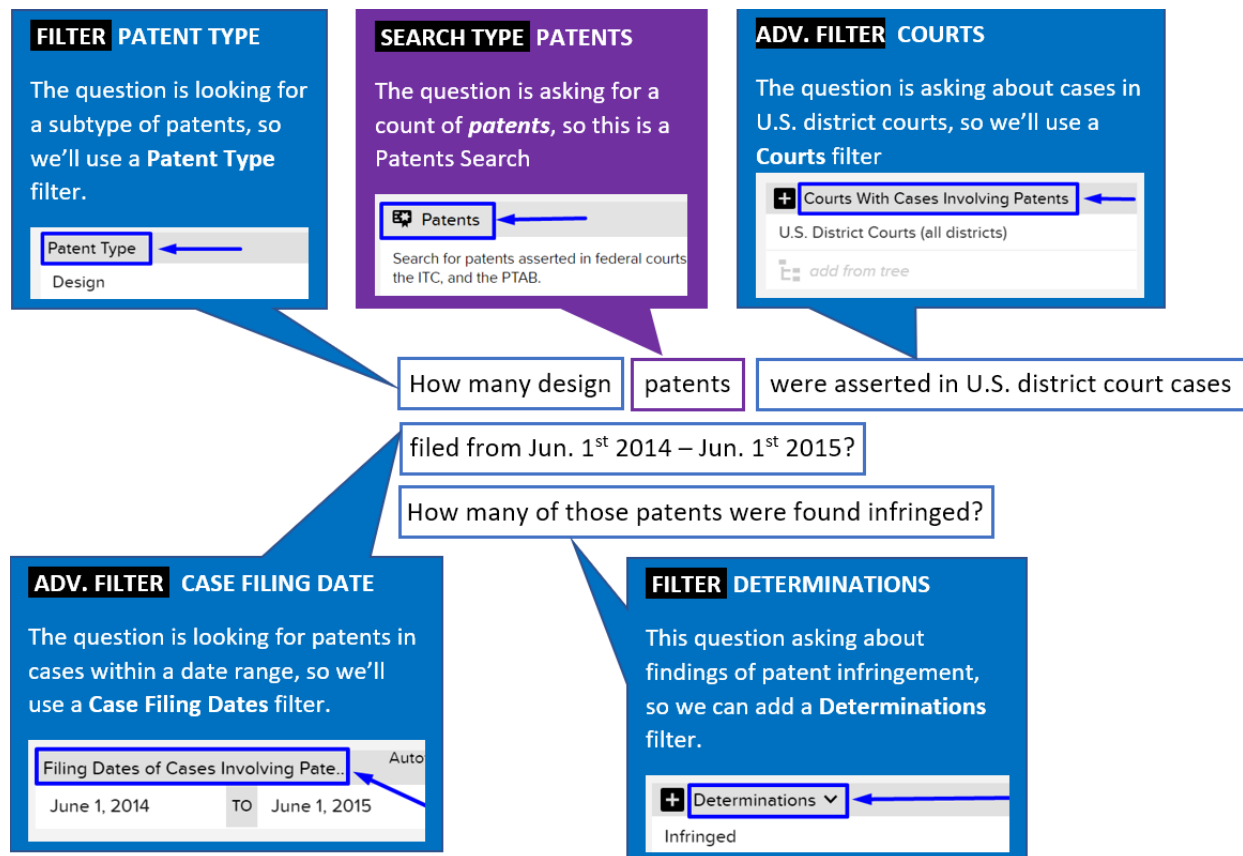

Answer

382 Patents, 61 Infringed

When converting a real-world question into a Docket Navigator query, the first step is to consider what type of information answers the question. If the question calls for a list of cases, a **Cases** search will provide the answer. If the question calls for a list of patents, use a **Patents** search.

Overview

This question is asking for a count of patents, so we'll use a **Patents** search type. Other aspects of the question can be addressed with **Filters** within a Patents search, as shown in the diagram below.

STEP 1 – SEARCH TYPE

On the [main search page](#), select a **Patents** search

The screenshot shows the 'Custom Search' interface. At the top, there's a header 'Custom Search' with a sub-header 'Generate a list of Cases, Documents (or several other Custom Search types) that match the filters you select.' Below this, a paragraph explains how to select a Custom Search based on the type of information you are looking for. The main area is divided into two columns: 'Cases' and 'Documents'. The 'Cases' column has a table with columns 'Case', 'Active Judge', and 'Case Filing Date'. It lists several cases, including 'Externa Technologies, LLC v. Stabi Drill Specialties, LLC' and 'Corrent Therapeutics, Inc. v. Teva Pharmaceuticals USA, Inc. et al'. The 'Documents' column has a table with columns 'Type of Document', 'Result', 'Case', and 'Document Date'. It lists several documents, including 'Motion to Reject Transcript' and 'Motion to Lift Stay / Reopen'. Below these tables, there are search bars for 'Search For Cases' and 'Search For Documents'. At the bottom, there are four tabs: 'Patents', 'Accusations', 'Docket Sheets', and 'Remedies'. The 'Patents' tab is selected and highlighted with a red box. A red arrow points from the 'Patents' tab to the 'HIDE SEARCH TYPES' button in the top right corner.

STEP 2 – FILTERS:

Using the **Patent Type** filter, select “Design” from the dropdown

The screenshot shows the 'Patent Type' filter dropdown. It has a search bar with the text 'begin typing'. Below the search bar, there are five options: 'Select All', 'Utility (4909)', 'Reissue (105)', 'Design (382)', and 'Plant (2)'. The 'Design (382)' option is selected and highlighted with a red box. At the bottom of the dropdown, there is a blue 'SAVE' button.

Under the Advanced Filters tab, use the **Court with Cases Involving Patents** filter to select *U.S. District Courts*

The screenshot shows the 'Courts With Cases Involving Patents' filter. It has a search bar with the text 'type to find in tree'. Below the search bar, there are four options: 'U.S. District Courts (USDC)', 'Federal Circuit (CAFC) Limited Scope', 'International Trade Commission (ITC)', and 'Patent Trial and Appeal Board (PTAB) (9)'. The 'U.S. District Courts (USDC)' option is selected and highlighted with a red box. At the bottom of the filter, there is a section for 'Filing Dates of Cases Involving Patents' with a date range from 'June 1, 2014' to 'June 1, 2015'. A red arrow points from the 'U.S. District Courts (USDC)' option to the 'VIEW 382 RESULTS' button in the top right corner.

Using the **Case Filing Date** filter, enter the relevant dates

STEP 3 – VIEW RESULTS

Click “View 382 Results” to view the search results

The screenshot shows the search results page. At the top, there is a header with 'or Patents', 'Advanced Filters', 'Use Previous Search Results', 'MORE SEARCH TYPES', and a red box around 'VIEW 382 RESULTS'. Below the header, there is a section for 'Find a list of Patents' with three filters: 'Parties in Cases Involving Patents', 'Attorneys in Cases Involving Patents', and 'Courts With Cases Involving Patents'. The 'Courts With Cases Involving Patents' filter is selected and highlighted with a red box. A red arrow points from the 'VIEW 382 RESULTS' button to the 'Courts With Cases Involving Patents' filter.

***Frequent Mistakes:** Using a Cases search instead of a Patents search.
